## Meet the 2021 Class of Smart Community Corps

The Smart Community Corps (SCC) is the first statewide program of its kind for civic-minded students to gain hands on smart city experience. Generously funded by Microsoft, the SCC is a joint collaboration with the Georgia Tech Career Center, Serve-Learn-Sustain, and Student Government Association.

## Georgia Smart Savannah Project Holds Virtual Site Visit

Using data collection, machine learning, and consulting with affected residents, the city of Savannah has been working to address blight in its neighborhoods and develop plans for affordable housing options as part of an ongoing revitalization focus. Savannah is one of four communities in the state participating in the Georgia Smart Communities Challenge (Georgia Smart).

## Valdosta launches TravelSafely App

On Wednesday, June 23, the City of Valdosta hosted the Partnership team among others at events across the city to celebrate the launch of their TravelSafely App which allows for Emergency Vehicle Preemption throughout the city. The app works in concert with a smart traffic management system made possible by the Georgia Smart grant they received last year.

## About

The Partnership for Inclusive Innovation (Partnership) is a public-private partnership that launched in 2020 to lead coordinated, statewide efforts to position Georgia as the Technology Capital of the East Coast. Dedicated to advancing innovation, opportunity and shared economic success across the state, the organization's focus on community research, student engagement and pilot programs is a powerful combination that establishes Georgia as a living lab for inclusive innovation. Under the guidance of board chair G.P. Bud Peterson and executive director Debra Lam, the Partnership seeks to help foster access, growth, entrepreneurship and innovation throughout the state.
