## About

Launched in 2020, the Partnership for Inclusive Innovation is a public-private organization that was created to lead coordinated, statewide efforts to position Georgia as the leader for innovation, opportunity and shared economic success. The Partnership's focus pillars of community research, workforce development, student engagement and economic opportunity are a powerful combination that provides technical and financial support to open innovation through collaboration. Since 2020, the Partnership's work has catalyzed 30+ projects with local governments, universities, start-ups and nonprofits. The projects have created new businesses, increased access to financial and social capital, and deployed more than 170 technologies.
